Parenting no longer shows up on an education transcript as it no longer is coded as an education program. Nearly all of the FSA associated programs now have national codes and these only show up on an inmate's PP44 screen (to which you do not have access), but I can assure you that you are coded as participating in parenting at the current time under that national code.

Fannie, Freddie Urge

By ANDREW ACKERMAN

A top federal regulator said mortgage giants **Fannie Mae** and **Freddie Mac** should hold \$240 billion in capital after they return to private ownership.

The figure the Federal Housing Finance Agency proposed on Wednesday sets a high hurdle for the companies, which together insure half of the \$11 trillion mortgage market and were taken over by the government during the

2008-09 financial crisis.

Fannie and Freddie currently hold about \$23.5 billion of capital between them. In 2018, when the FHFA was still run by an Obama appointee, the agency estimated that they would need to hold about \$180 billion in loss-absorbing capital after exiting government control.

FHFA officials believe Wednesday's proposal puts the companies on track to begin raising capital next year, though they say the timing

isn't calendar-dependent.

The proposal represents several key steps in a long-term effort to resolve the future of Fannie and Freddie. In September the FHFA Treasury Department said Fannie and Freddie to much as \$45 billion in earnings—pausing a plan that they turn over of their profits to the

Trump Ex-Lawyer Cohen to Be Released

President Trump's former lawyer Michael Cohen will be released from prison due to coronavirus concerns and is expected to serve the rest of his three-year sentence from home, a person familiar with the matter said.

Mr. Cohen will be leaving the facility in Otisville, N.Y., on Thursday, pending processing to home confinement, the person said. He is among more than 2,900 federal inmates placed on home confinement in recent weeks as prison officials try to identify those who are at high risk for the disease and low risk for re-offending.

Mr. Cohen, 53 years old, reported to Otisville in May 2019 following a conviction on campaign-finance charges stemming from his involvement in the payment of hush money to women who alleged they had affairs with Mr. Trump. Mr. Cohen also pleaded guilty to tax crimes and making false statements.

Prison officials have said they are giving priority to those who have served at least half of their sentences, or who have 18 months or less left and have served 25% of their terms. Mr. Cohen has served about a year of his three-year term. He qualifies, however, because he has earned 162 days of good-conduct credit, moving up his release date to Nov. 22, 2021, the person familiar with the matter previously said.

be felled again by a later resurgence of the coronavirus.

When it comes to managing risks around the pandemic, "so much has been said about this already, that I think as soon as something would pop up we'd be all over that as a society, pounce on it at that point and keep it under control," Mr. Bullard said Wednesday, in remarks at a Missouri Growth Association virtual event.

A number of central-bank officials have cast a cautious eye toward the economic reopening in some parts of the nation,
